This actively managed equity fund invests mainly in companies listed or traded in Russia or companies that conduct a tangible part of their economic activity in Russia. The fund may also invest up to one third of its net assets in companies that are listed or traded on regulated markets in eligible countries in the surrounding region. Our fundamental investment process enables us to identify what we regard as undervalued, good quality companies that have a healthy growth potential and a skilled management team. Since the fund invests in securities that are issued in other currencies than the base currency of the fund the return may be affected by changes in the exchange rates.
