This actively managed fund invests mainly in equities and equity related securities, issued by companies of any size and sector in Europe or traded there on a regulated market. The investment team uses a quantitative strategy, that integrates sustainability themes to select companies that are deemed to offer the best potential for long-term capital growth. The fund promotes sustainability-related properties via integrated sustainability analysis as part of investment decisions, and the exclusion of companies, business models and products that are deemed to affect the climate, society, or stakeholders negatively. The fund's active corporate governance process aims to drive and influence the development of companies in which we invest. For detailed information, see the fund's Sustainability Information document on the Prices & Facts section of our website.
