AMF Aktiefond Asien Stilla havet

ISIN: SE0002572313

The Fund is managed by AMF Fonder AB, corporate identity number 556549-2922, a subsidiary of AMF Tjänstepension AB

OBJECTIVES AND INVESTMENT POLICY

The fund is an equity fund with a broad investment strategy which invests in companies in various sectors in the Asia-Pacific region. The fund may invest in other funds and in money market instruments, derivative instruments and bank deposits.

The fund's objective is to achieve a return in excess of its benchmark, by using a well diversified portfolio.

The fund is actively managed. Deviations from its benchmark can vary over time, please read more in the fund's information brochure or its annual report for historical variations. The fund invests in companies with high ESG-grades (environment, social factors and governance). The fund managers use fundamental analysis of, mainly large- and midcap companies, in order to take active positions within the funds risk limits. Allocations between countries and sectors may be adjusted on the basis of updated assessments.

The fund is using certain sustainability criterias. Please, read more on our website or in the fund's information brochure for a complete information regarding our sustainable investments.

We compare the fund's performance with the benchmark MSCI AC Asia Pacific ESG Leaders NR (from 1 January 2016; previously FTSE World Asia Pacific NR).

The fund does not distribute dividends.

Units can normally be bought and sold on any working day. Days on which trading cannot take place are shown in the fund's trading calendar, available at www.amf.se/fonder.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within 5 years.

RISK AND REWARD PROFILE

The risk/reward indicator illustrates the trade-off between risk and potential returns when investing in the fund. The indicator is based on how the fund's value has fluctuated over the past five years.

This fund is in risk category 5, which entails a high risk of both increases and decreases in unit value. Category 1 does not mean that a fund is risk-free. A fund may move along the scale over time, to both the right and the left. This is because the indicator is based on historical data, which are no guarantee of future risks/rewards.

The risk scale illustrates the level of exposure to the fund's most significant risks. It does not illustrate the risk of:

The risk scale illustrates the level of exposure to the fund's most significant risks. It does not illustrate the risk of:
